Soil Horizon Logo Development

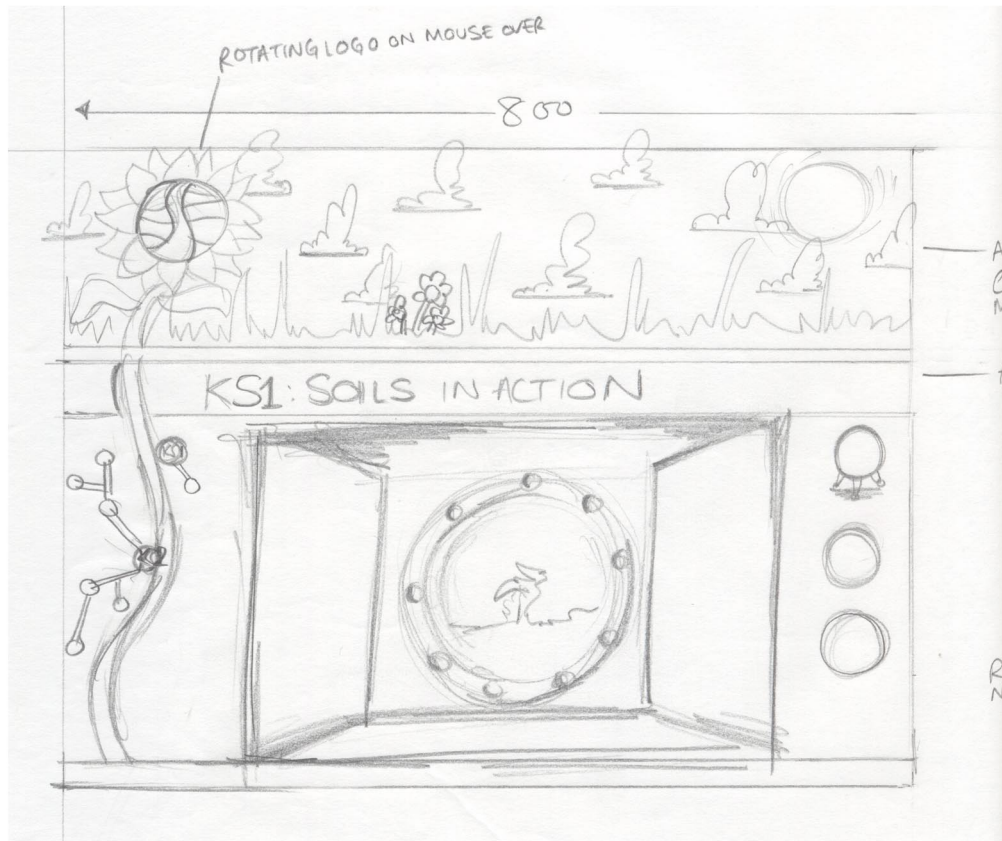

fig. 1

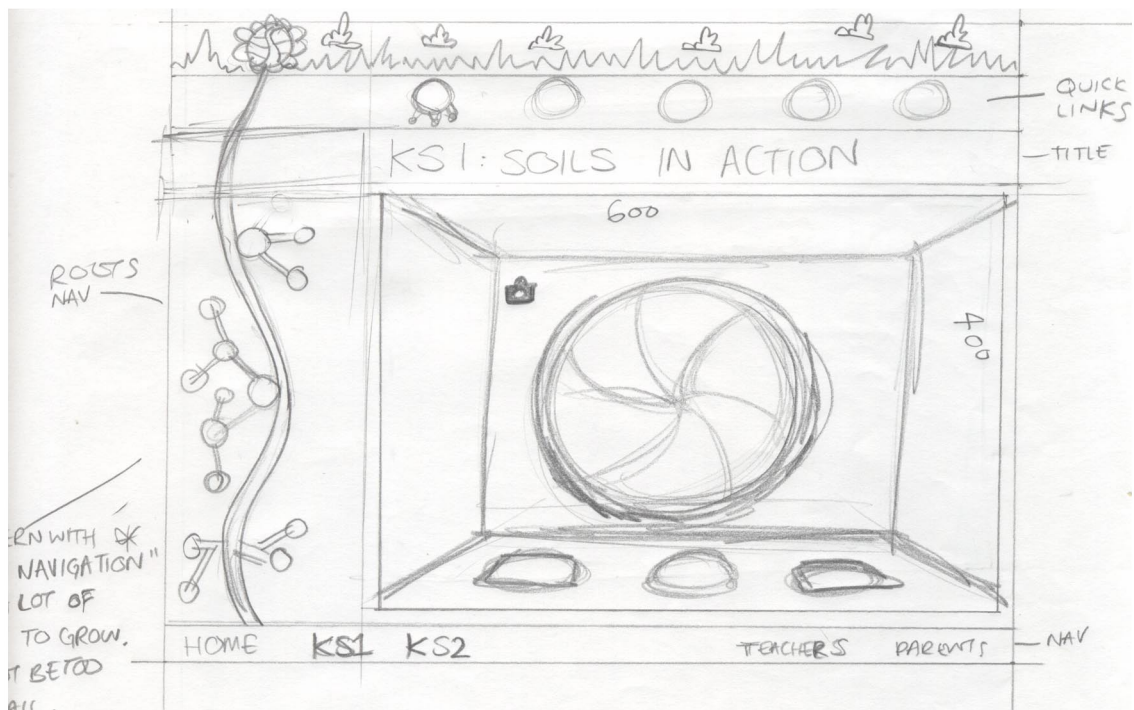

fig. 2

KS1 & 2 Layout Sketches Sketches

The two sketches display the interaction of the layout and the Flash movie. Note a development to the issue of logo and flower at the top of the roots navigation.

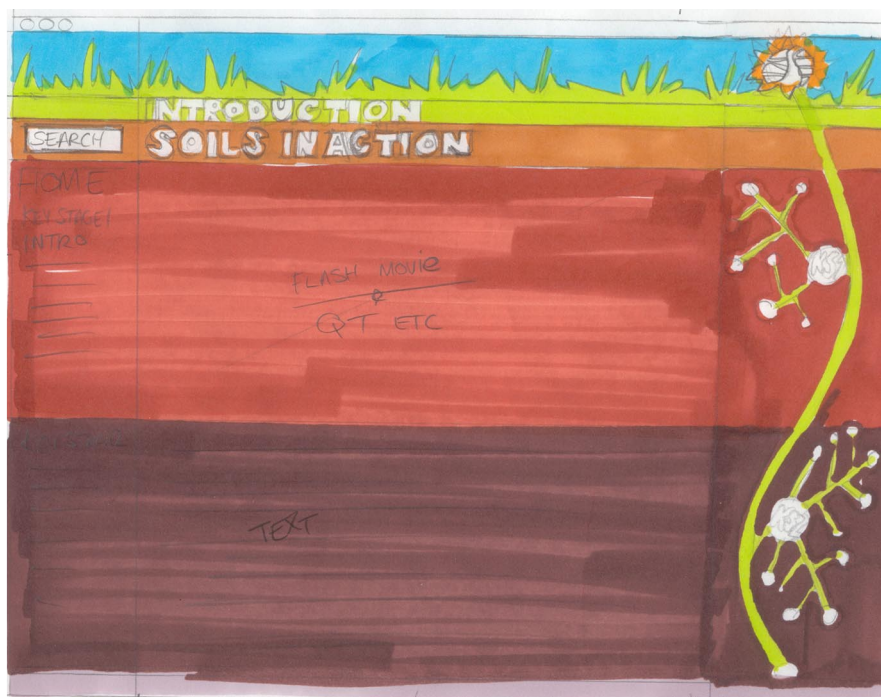

fig. 1

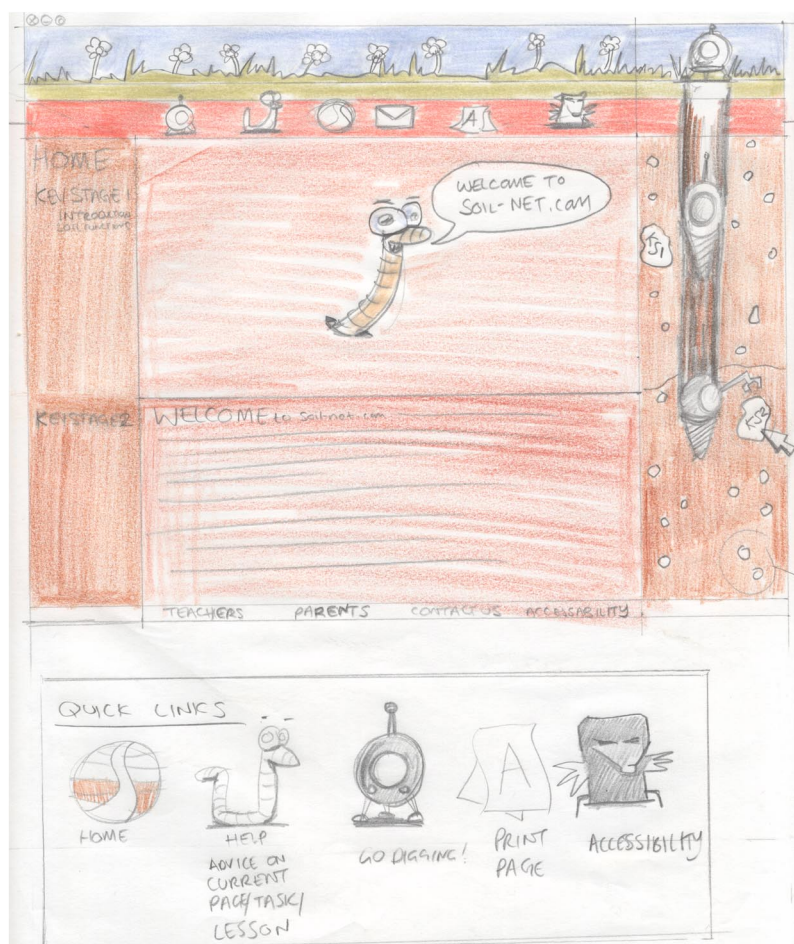

fig. 2

KS1 & 2 Layouts Development

fig. 1 shows a Site Machine layout with dedicated movie space, beneath which is a dedicated HTML text space (designed for ease of editing). The right hand side 'roots' navigation has the main root shaped in an 'S' shape leaving space for growing navigation.

fig. 2 is similar with changes to right hand side navigation which has the 'Soil-net Machine' digging down to selected links. Links are represented by objects/rocks found in the soil, giving a real "digging into the site" analogy.

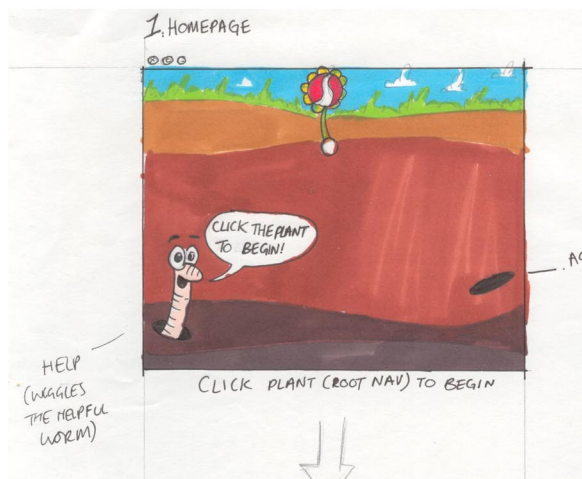

fig. 1

fig. 2

fig. 3

KS1 & 2 Flash Layout Development

A modified version of the soil horizons layout. With the horizons becoming more fluid and a centred navigation bar.
